REMARKS

Applicant has amended the specification to provide a Sequence Listing and to insert sequence identification numbers, where appropriate. Applicant has also amended the descriptions of Figures 1, 2 and 6-8 to assign sequence identification numbers to amino acid sequences in molecules which appear thereon. Applicant has also amended claims 1, 8 and 99-110 to insert sequence identification numbers. Applicant maintains that these amendments raise no issue of new matter, and entry of these amendments is respectfully requested.

The February 4, 2009 Notice indicates that the application fails to comply with the requirements of 37 CFR 1.821-1.825. In response, Applicant encloses herewith a Sequence Listing in both computer readable form (floppy disk) and paper form (7 pages) (**Exhibit 2**) for the subject application. The Sequence Listing information recorded in computer readable form and attached hereto is identical to the paper copy of the Sequence Listing attached hereto. Furthermore, the Sequence Listing includes no new matter.

Applicants have also amended the specification to insert sequence identification numbers, where appropriate.
